

## How The Guild is responding to COVID-19

As the Coronavirus (COVID-19) situation evolves, the team at The Guild continues to closely monitor developments regionally and globally. We are following official guidelines and operating procedures based on the most recent recommendations of the Public Health Office of the Province of P.E.I. in order to support health and safety in our community. We want to reassure all our visitors that the health of our employees, our patrons, our artists, and the general public is our priority.

**The Guild Box Office, Theatre and Gallery will be closed to the public until March 31 unless otherwise updated.**

We will continue to provide updates on our social media sites, on our website, and through local media. Any additional information about our theatre, gallery, arts education, or facility rentals, will be based on future recommendations from Provincial Public Health.

For more detailed information about, and general precautions and best practices regarding COVID-19, please visit the Provincial Public Health website.
